THATCHED PROPERTY INSURANCE

John Albion Insurance for your client's thatched and unique homes

We've been arranging insurance for thatched properties and barns across the UK for more than 30 years. We've seen all sorts of homes and know that nothing is standard.

Not only that, but all our policies are underwritten by an A-rated insurer and supported by an in-house Claims team. They'll help your clients manage the claims process and reach a satisfactory conclusion.

We can offer your clients:

- Accidental damage covered as standard
- Chimney heights less than 1.8m covered
- Cover available for homes with woodburners and flues*
- Protection for second homes and thatched rental properties
- Option to pay via interest-free instalments
- Excess as low as £250 with the option to increase to £1000

We'll work with you to assess the risks your clients face and make sure their homes have the right protection in place.

Call us on 01603 218258 to find out more today.

"We have been delighted by the quality of service we have received from the team; they are friendly, professional with a 'can do' attitude. The assistance received has been the difference between gaining or retaining a client, or losing them."
